

# Mentorship for Ukraine

UPSKILLING, MENTORSHIP & EMPLOYMENT

# Mentorship platform

The Educational Equality Institute is proud to present our Mentorship for Ukraine program, an initiative designed to provide Ukrainians with valuable insights from experienced corporate mentors.

Our program offers two types of mentoring: flexible on-demand and structured.

Both types are hosted on our platform with world-class UX and minimum admin work and providing engagement analytics.

## FLEXIBLE ON-DEMAND MENTORING

This approach allows mentees to seek immediate guidance as required and access swift advice. Mentors signing up for this program will have their profiles published and can set their availability in the system's backend. The sign-up process is quick and easy, taking only 2–5 minutes.

Mentors can always adjust their availability, reschedule meetings, or cancel requests from mentees. This flexibility allows mentees to book one-off advice sessions and form long-term relationships by booking the same mentor repeatedly.

## STRUCTURED MENTORING

In this format, both mentors and mentees sign up to the program and share their professional interests. Using a scalable AI algorithm, the program matches mentors and mentees according to their interests and sends out recommendations to mentees for reaching out to their matched mentor(s).

This program encourages long-term mentor–mentee relationships with a defined duration (e.g., 6 months) and regular meetings to discuss goals, progress, and development.

## ONE PLATFORM FOR BOTH TYPES OF MENTORING

Our platform hosts both flexible on-demand and structured mentoring in one place. With world-class user experience and minimal administrative work, we provide engagement analytics to keep track of the program's progress and effectiveness.

## PROGRAM BENEFITS

experienced corporate mentors, enhancing their professional skills and knowledge, and helping them seek career guidance. Participants will be able to broaden their network and access potential future opportunities, contributing to their personal and professional growth.

## AREAS OF MENTORSHIP

As a mentor in our program, you have the opportunity to share your expertise and provide guidance in a diverse array of areas.

The following list is an example of areas where you could offer mentorship: **Web Development | Software Engineering | Data Science and Machine Learning Automation | Human Resources (HR) | Marketing | Project Management | Business Intelligence | Communication | CV and Interview Training | Entrepreneurship | Finance | Business | Leadership Development | Strategic Planning | UX**

Your insights and guidance can make a significant difference in the professional development and growth of the Ukrainians in our program.

## PROGRAM TRANSPARENCY

We believe in the importance of transparency and accountability. Corporate administrators and the Educational Equality Institute have access to data analytics of program performance, including the number of bookings and participant activities, such as cancelling or not showing up for meetings. This allows us to monitor the program's impact and make necessary improvements.
